UPNPplus

unp (1).jpg UPNPplus (Uttar Pradesh Welfare for People Living with HIV/AIDS Society) is a community-based organisation that speaks up for the needs of people living with HIV/AIDS across Uttar Pradesh. It is led by and for the community and puts people living with HIV first in everything it does. Its work helps people get regular treatment, stay healthy, and claim the government support they are entitled to. This role sits within UPNPplus's CSC-2.0 SSHAKTI Program, which runs outreach to help people living with HIV start treatment, stay on it, and get care and social support.

Role

As Community Liaison Health for Jhansi district, you will be the link between people living with HIV and the health services they need. You will visit homes and communities and follow up with people who have missed treatment or are new to it. You will make sure pregnant women and newborns get the care that keeps babies free of HIV, and you will help families apply for welfare schemes. Your steady follow-up will help people stay on treatment and live healthier lives.

Responsibilities

- Track people who have missed treatment or dropped out of care, and help them return to their ART centre.
- Support people who have just started HIV treatment during their first three months.
- Follow up with pregnant women and new mothers to make sure they take their medicines, attend check-ups, and give birth in a hospital, so their babies stay free of HIV.
- Follow up on infants up to 18 months, making sure they get their medicines and HIV tests on time.
- Link people who test positive at testing centres to the nearest ART centre so treatment starts quickly.
- Follow up with couples where one partner has HIV, people on second or third line treatment, and people also being treated for TB.

- Visit stable clients to check on their health, keep treatment adherence above 80%, and understand what support they still need.
- Help families fill in forms for welfare schemes, record and check data in project tools, and support the Project Coordinator with reports and other tasks.

Requirements

- You should have completed your 12th standard education.
- You need a basic understanding of the National AIDS Control Programme (NACP).
- You should be willing to work closely with groups of people living with HIV, with care and respect for their privacy.
- You need reasonable writing and speaking skills to talk with clients and keep simple records.
- You should be based in or willing to work across Jhansi district, with regular field and home visits.
- Candidates from communities infected or affected by HIV/AIDS are preferred.

Benefits

- Monthly pay of ₹10,000.
- Hands-on experience in community health and HIV care within a national programme.
- A chance to work in a community-led organisation and make a direct difference in people's lives.

UPNPplus (Uttar Pradesh Network of People Living with HIV/AIDS)

UPNPplus is a community based, non profit organization representing the needs of people living with HIV/AIDS (PLHIV) in Uttar Pradesh. The organization is managed and run by people living with HIV themselves, and works to build a holistic and participatory approach to community empowerment, with priority given to women and children living with HIV. Active for 18 years, UPNPplus has outreach across 75 districts in Uttar Pradesh, reaching close to 90,600 PLHIV. unp (1).jpg

 *Head Quaters: Allahabad (Prayagraj), Uttar Pradesh, India*

Major Areas of Work

- Care and Support: Linking PLHIV to early care, treatment, and social protection services, along with treatment adherence support.
- Community Led Networks: Building and strengthening District Level Networks (DLNs) managed by the PLHIV community to deliver decentralised care and support.
- Prevention and Outreach: Running targeted interventions among migrant and general populations, including condom distribution, health camps, and HIV awareness programs.
- Rights and Advocacy: Addressing stigma and discrimination faced by PLHIV, and coordinating with national and state government on shared priorities under the National AIDS Control Program.

Major Initiatives and Programs

- SSHAKTI programme
- Vihaan Care and Support, focused on early linkage to care, treatment adherence, and expanded positive prevention activities, funded by Alliance India
- Link Worker Scheme, building a rural community model for HIV prevention, care, and support, funded by UPSACS

- Target Intervention, covering social marketing of condoms, referral services, health camps, and awareness programs, funded by UPSACS
- AHANA Program
- Subhiksha+ and Blended Training for HIV Elimination
- Corporate Social Responsibility (CSR) programme engaging corporate partners in HIV response work

Impact UPNPplus has worked with PLHIV in Uttar Pradesh for 18 years, building outreach across 75 districts and reaching approximately 90,600 people living with HIV. The organization has established District Level Networks across the state that continue to provide direct care and support services to PLHIV and their families, strengthening a decentralised, community led model of HIV response.

Leadership

- Ms. Ajeeta Yadav, President
- Mr. Ganga Prasad Gupta, General Secretary
- Ms. Neelam Patel, Vice President
- Smt. Mamta Singh, Treasurer

Partners Alliance India, UPSACS, HLPPT, SATHII, HRLN, Breakthrough, Clinton Foundation, FICCI

UPNPplus offers the opportunity to work in an organization led and run by the community it serves, giving staff direct, lived understanding of the challenges faced by people living with HIV. With 18 years of grassroots presence across 75 districts, the organization offers exposure to community mobilisation, government coordination, and direct service delivery, with a clear mission tied to India's national HIV elimination goals by 2030.
