Skills this role needs

- Azure DevOps CI/CD pipelines
- Terraform infrastructure as code
- Kubernetes / Helm / Docker
- Scripting in Python / PowerShell / Bash
- Release management with TeamCity and Git

Job description

Rotary International

Rotary brings together people from every continent and culture who take action to solve the most pressing problems facing their communities. Each year, Rotary members give more than $200 million and 16 million volunteer hours to improve lives and create lasting change around the world. Rotary values diversity and welcomes people of every age, background, ability, religion, culture, sex, sexual orientation and gender identity. This role sits within the Technology Services team at Rotary International Infotech in Pune, Rotary's technology centre, which supports the IT needs of Rotary's headquarters in Chicago, USA.

Role

As DevOps Administrator, you will keep Rotary's websites and web applications safe, secure and running well for members across the world. You will automate how code is built, tested and released, look after cloud systems on Azure and Oracle Cloud, and step in quickly to fix problems when they come up. You will work closely with developers, testers and operations staff, and help the team take up better tools and ways of working.

Responsibilities

- Automate the setup and configuration of Azure infrastructure using Terraform, and manage environments from development and testing through to staging and production.
- Design, build and maintain CI/CD pipelines in Azure DevOps and TeamCity, and fix failed builds and deployments together with developers and testers.
- Manage all releases, including daily builds to QA, maintenance and emergency releases, patches and new project launches.
- Run version control on Git, GitHub and Bitbucket, including repositories, user groups, branching and release snapshots.
- Deploy and manage Kubernetes clusters with Helm charts, and maintain application servers such as IIS, Apache and Nginx.
- Monitor system health with tools like DataDog, SolarWinds and Rapid7, scan for security gaps, apply patches, manage access controls and automate SSL certificate renewals.
- Respond to production issues as part of on-call rotations, and keep resource use, scaling and running costs in check.
- Write clear documentation, train teammates on DevOps tools, and test new tools through proof of concepts.

Requirements

- A graduate or postgraduate degree in any field with a background in DevOps and software development, with a BE, MCA or M.Sc. in Computer Science preferred.
- 3-5 years of work experience in DevOps or infrastructure, test automation and software development.
- A mandatory AZ-900 or AZ-104 Microsoft Azure certification.
- Solid experience with Azure and Oracle Cloud, Windows and Linux administration, and networking basics such as DNS, load balancing, firewalls, WAFs and VPNs.
- Hands-on skill with Terraform, Ansible, Kubernetes, Helm, Docker, TeamCity, Azure DevOps, Jenkins, Git and Bitbucket, along with scripting in Python, PowerShell or Bash.
- Experience with Jira, Confluence and ServiceNow, and with working in Agile teams using Scrum or Kanban.
- Clear written and spoken communication, strong problem-solving skills, and the ability to explain technical ideas in plain language.

- Based in or willing to relocate to Pune, and open to working US hours on rotational shifts across a 24x5 schedule, handling emergency changes and off-hour issues, and travelling when needed.

Benefits

- Competitive pay, with Provident Fund and gratuity.
- Generous paid time off above the market standard, and support for a healthy work-life balance.
- Insurance cover, a relocation policy, employee referral rewards and the chance to apply for internal roles.
- Professional development, ongoing training on new tools and technologies, and rewards and recognition for good work.
- Access to an International Employee Assistance Program.

About Rotary International

Rotary International is a global service organization founded in 1905 by Chicago attorney Paul P. Harris, making it one of the oldest and largest civilian service organizations in the world. It provides service to others, promotes integrity, and advances world understanding, goodwill, and peace through a global fellowship of business, professional, and community leaders. Rotary operates through more than 45,000 member clubs across nearly every country in the world, with around 1.2 million Rotarians and a wider service network, including Rotaract and Interact clubs, of close to 1.9 million volunteers. It is non-political and non-religious, and is headquartered in Evanston, Illinois, USA.

Youtube Video >

Major Areas of Work

- Disease Prevention and Treatment: Strengthening local healthcare capacity, promoting disease prevention, and supporting the global effort to eradicate polio.
- Water, Sanitation and Hygiene: Improving community access to safe water, sanitation, and hygiene education, and helping communities build and maintain sustainable systems.
- Maternal and Child Health: Supporting prenatal care, childbirth services, and immunization access for mothers and children.
- Basic Education and Literacy: Expanding access to quality basic education and strengthening literacy in underserved communities.
- Community and Economic Development: Building the capacity of local entrepreneurs, leaders, and organizations to support economic opportunity, particularly for women.
- Environment: Supporting environmental protection and sustainability projects at the community level.
- Peacebuilding and Conflict Prevention: Training community leaders and youth in peace education, mediation, and conflict resolution.

Major Initiatives and Programs

- Global polio eradication campaign, begun in 1979 with an initial project to immunize 6 million children in the Philippines, and continuing today as one of Rotary's signature global efforts
- Global Grants and District Grants through The Rotary Foundation, funding large scale and local service projects aligned with Rotary's areas of focus
- Rotary Peace Fellowships, supporting master's degree and certificate study in peace and conflict resolution at Rotary Centers for International Studies worldwide
- Rotaract and Interact, youth and young professional service and leadership programs affiliated with Rotary clubs globally
- Rotary Youth Exchange and Rotary Youth Leadership Awards (RYLA), supporting youth development and international exchange

Impact

Rotary has grown from a single club in Chicago in 1905 to more than 45,000 clubs operating in nearly every country in the world, with around 1.2 million members and close to 1.9 million volunteers across the wider Rotary family. Its global polio eradication effort, running since 1979, has been central to reducing polio cases worldwide by over 99 percent, and its Global Grants program continues to fund large scale humanitarian and development projects across its seven areas of focus.

Leadership

- Francesco Arezzo, President, Rotary International
- John Hewko, CEO and General Secretary, Rotary International
- Board of Directors and Rotary Foundation Trustees, overseeing global strategy and grant funding

Rotary International offers the opportunity to work with one of the world's largest and longest running service organizations, with over a century of institutional history and a genuinely global reach across 45,000 clubs. Staff work alongside a vast international network of volunteer professionals and community leaders, with exposure to large scale humanitarian programs, from polio eradication to peacebuilding, backed by a strong culture of ethics and long term, mission driven service.
