MAMTA-HIMC

MAMTA Health Institute for Mother and Child works to improve the health of women, children and young people. It works side by side with communities in low-resource settings, helping families understand their health needs and reach the care they are entitled to. Its teams build strong links between villages and frontline workers, schools, Anganwadi Centres and government health facilities. This role sits within MAMTA-HIMC's community health project in Telangana, which raises awareness on menstrual, reproductive and adolescent health and supports people through screening, referral and follow-up.

Role

As a Field Assistant in Shabad and Chevella blocks of Ranga Reddy district, you will be the link between village families and the health services around them. You will visit homes, run awareness sessions in communities and schools, screen people at risk of priority health conditions, and help them reach government health facilities, working closely with ASHAs, ANMs and Anganwadi Workers. You will report to the Field Supervisor and keep careful records of every visit, referral and follow-up.

Responsibilities

- Build working relationships with village leaders, frontline workers, village health committee (VHSNC) members and panchayat representatives so project activities run smoothly.
- Visit households to identify beneficiaries, carry out screening and follow-up, and keep beneficiary records up to date.
- Meet beneficiaries one-to-one to share health information, counsel them, and refer them to the right health services.
- Coordinate with ASHAs, ANMs and Anganwadi Workers to make referrals and help more people use the health services available to them.

- Run awareness sessions, group sessions and campaigns in communities and schools, and bring people together for screenings, health camps and special-day events.
- Help beneficiaries access government health facilities, welfare schemes and other health services.
- Keep accurate records of screenings, referrals, follow-ups and sessions, and complete data entry on time.
- Share regular updates and reports with the Field Supervisor, raise field challenges early, and help document project learnings and success stories.

Requirements

- You have passed Class 12 at minimum, and a graduate degree is preferred.
- You ideally have 4-5 years of experience in the development or public health sector, including community mobilization, data collection, beneficiary follow-up, counselling, field coordination and reporting.
- You speak and write Telugu and Hindi fluently, and working knowledge of English is an advantage.
- Basic computer skills are an added advantage.
- You live in Telangana, ideally in Shabad or Chevella Block of Ranga Reddy district, or you know the local area well.
- You are willing to make regular field visits and household visits and take part in community activities.
- You work well with communities, frontline workers, local leaders and project teams.
- Women candidates are preferred and encouraged to apply.

Benefits

- A full-time role with a monthly salary of ₹18,500.
- Work directly with families in Shabad and Chevella and see how better health awareness changes lives in your community.
- Gain hands-on experience in community health, counselling and field data work, with support from the Field Supervisor and Program Manager.

About the Company

[Visit website →](#)

Mamta Health Institute for Mother and Child (MAMTA-HIMC) is a public health organisation that runs research and programmes to strengthen health systems and improve health for women, children, adolescents and communities. Paediatrician Dr Sunil Mehra founded it in December 1990 as a small clinic in Tigri, an urban slum in Delhi.

Youtube Videos

It has since grown into a national organisation working on maternal, newborn, child and adolescent health, nutrition, non-communicable diseases, mental health, HIV and TB. It describes its approach as combining new research methods with carrying out public health programmes, often in partnership with central and state governments. It is registered as a society under the Societies Registration Act, 1860, holds FCRA registration, and has special consultative status with the UN Economic and Social Council (ECOSOC).

■ *Headquarters: New Delhi, Delhi, India*

Major Areas of Work

- Health systems and communities: Building resilient health systems and healthy communities, including training, capacity building and technical support for government health programmes.
- School health and wellness: Bringing health and wellness into schools and other learning spaces, with a strong focus on adolescents.
- Climate and health: Helping health systems prepare for climate change, including its effects on maternal and early childhood health.
- Nutrition: Improving nutrition for children, mothers and families through supplementation, counselling and nutrition education.
- Equity and empowerment: Strengthening communities through work on sexual and reproductive health and rights, harmful gender norms, and access to care for people living with HIV and TB.

Major Initiatives and Programmes

- Centre of Excellence for Adolescent Health and Development: A centre at Sir Sunderlal Hospital, Banaras Hindu University, run with the National Health Mission, Uttar Pradesh, that provides counselling and outreach to adolescents and carries out research on adolescent health.
- Healthy Schools Program: Delivered with Arogya World in government schools across Rajasthan. It uses interactive activities with middle school students, particularly tribal and rural adolescent girls, to build nutrition literacy and healthy habits and to prevent diabetes.
- Bowl of Growth: A PepsiCo Foundation-supported nutrition programme in rural Pune and the urban slums of Mumbai. It provides nutrition supplementation to children with mild acute malnutrition and nutrition education to their parents and caregivers.
- Unite to ACT: A Global Fund-supported TB project in which Mamta led community engagement in Rajasthan, Madhya Pradesh and Gujarat as a sub-recipient with REACH, built around a TB Champion model.
- Unnati: A sexual health education and awareness project with Evonith Steel in villages of Wardha and Buldhana districts in Maharashtra. It works with girls, boys, women and men, and runs regular health camps.
- Regional Resource Centres: In partnership with the Ministry of Health and Family Welfare, Mamta has managed the Regional Resource Centres for Punjab, Haryana and Chandigarh, which provide technical support to government health programmes.

Impact

Mamta states it has worked in public health for more than 30 years, ran a COVID-19 relief response across 20 Indian states, and has conducted a national training programme for government officials and health service providers across 25 states. Partner testimonials on its site cite more than 5,000 children reached through Bowl of Growth over three years. They also cite more than 1,00,000 students in 1,083 government schools in Rajasthan reached through the Healthy Schools Program, which Arogya World describes as part of a project with a total reach of 550,000 children. The White Ribbon Alliance gave it the Global Safe Motherhood Award for its safe motherhood work.

Partners

- Government: Ministry of Health and Family Welfare, National Health Mission, and the governments of Haryana, Himachal Pradesh and Uttar Pradesh.
- Multilateral and bilateral agencies: WHO, UNICEF, UNDP, USAID, Sida (Sweden) and the Japan International Cooperation Agency.
- Foundations: Gates Foundation, Ford Foundation, PepsiCo Foundation, Medtronic Foundation, HCL Foundation, HT Parekh Foundation and American Jewish World Service.
- Implementing and technical partners: Pathfinder International, PSI, Population Council, John Snow Inc., Plan India, PATH, EngenderHealth, Noora Health, Frontline AIDS, REACH and SAATHII.

-
- Academic partners: Karolinska Institutet, Lund University, London School of Hygiene & Tropical Medicine, University of Melbourne, Oregon State University, International Institute for Population Sciences and Banaras Hindu University.
 - Corporate partners: Oracle, Nestle India, Philips, Reckitt, Vedanta, Maruti Suzuki, H&M, Gap Inc. and Evonith Steel.

Leadership

- Dr Sunil Mehra, Founder and Executive Director

Mamta suits people who want to work in public health at scale. The work ranges from community outreach and counselling to research, training and technical support for government health systems. Its programmes cover maternal and child health, adolescent health, nutrition, NCDs, TB, HIV, and climate and health, so staff can gain experience in several health areas and across many states. Projects often run with government departments, universities and international agencies, which builds skills in partnerships, programme management and evidence generation. It fits public health professionals, researchers, programme managers and field staff who want to pair community-level work with changes to health systems.
